

Philosophy

Hyundai Foreign School (HFS) encourages an understanding of different cultures and respect for others. We nurture self-esteem, self-motivation, self-discipline, a lifelong love of learning and teamwork. We ensure that all our students will grow into well-rounded individuals with inquisitive minds, a love of knowledge and an international mindset.

Curriculum

HFS delivers a British based curriculum that is both recognised and transferred easily internationally. The HFS primary and middle years programmes utilise the Cambridge International Examinations (CIE) Primary and Secondary 1 curricula for English and Math. All other areas of the curriculum (including Science) are based on the International Primary Curriculum and International Middle Years Curriculum.

At HFS, we use a range of assessment strategies to monitor students' progress. The school utilises the Cambridge Checkpoint Tests and GL Assessments for English, Math and Science.

**Cambridge Assessment
International Education**

CIS Accreditation

HFS was fully accredited by the Council of International Schools (CIS) in May 2011 and retained accreditation in June 2016.

CIS is the premier world-wide accreditation organisation that requires rigorous standards for its global community of primary, secondary and higher educational institutions.

Composition

HFS' class composition is based on the British Educational System.

Age	HFS Year Group
3	Early Years (FS 1)
