

Mr Green's Homework

Term 1 - Week 3

Handed out - Friday 11th September
Hand-in before - Friday 18th September

Maths

This week we have been studying - **Addition and Subtraction**

- Homework - Addition and Subtraction Word Problems

Remember to show your working

English

This week we have been **writing non-chronological reports**

- Homework - Read 'Lucky Lottery Winner Win... Again'.

It is not the same as last week! - Look carefully, how is it different?

Other things you might try...

(optional)

- Research more about the subject of your report.
- Talk to somebody about these values that we talked about this week.

***Enquiry - Resilience - Morality - Communication - Thoughtfulness -
Cooperation - Respect - Adaptability***

What do the words mean and do you think you are good at showing them?

Which are the hardest for you, and which are the easiest?

- Think about the science concept of 'Forces'. We will start a new IPC unit about this next week, so have a think about what you already know.

*What is a force? - Where can we see forces in action? - How can forces can
helpful or unhelpful in our daily lives?*

LUCKY LOTTERY WINNERS... WIN AGAIN!

Reported by Susan Sharp, Media Correspondent, Ports Bay

Mr and Mrs Mills of Smith Lane, Ports Bay, could quite possibly be the luckiest couple in the country. William and Betty, who buy a lottery ticket once every month, have been celebrating for the second time in four years.

The fortunate couple first scooped a huge £275,000 back in February 2012, having bought their ticket at the last minute. 'We almost forgot to buy our ticket,' Mr Mills explained. 'We remembered just before our local supermarket closed and rushed down to get it.' Once they'd recovered from the initial shock, they donated a large amount of their winnings to several different charities, as well as making improvements to their home and treating their family and friends to special holidays. The lucky pair never thought that they'd win again but continued to take part in the lottery because the money goes to charity.

However, Mr and Mrs Mills were in for a shock as their lottery numbers were chosen again! On the night of this most recent win, Mr and Mrs Mills had their granddaughter staying with them.

Betty informed us how it happened, 'The lottery draw was on television and Alisha happened to be watching it. My husband and I were busy doing the dishes in the kitchen so she asked if she could check the numbers for us. In the next moment, she's screaming and shouting the house down! I thought she was joking.'

The couple had five matching numbers, winning them an even larger, life-changing amount of £800,000. Mr Mills added, 'We were all jumping around and dancing in the living room. We never believed it could happen again.' Alisha commented on the experience, 'I never knew my grandad could move like that!'

William and Betty Mills - are they the luckiest couple in the country?

When asked about their secret and top tips for choosing winning numbers, Mr Mills explained, 'We've always chosen numbers which mean something to us, like family birthdays or house numbers. My lucky number is 13. But really, we have just been hugely lucky. There's no secret method I'm afraid.'

The two winners have revealed that they'll be donating £600,000 of their win to local, national and international charities. 'They need the money more than we do,' stated Mrs Mills. 'We'll treat ourselves to a fancy meal out somewhere and give the rest to the family. We have our health and happiness so what more could we ask for?'

When asked if they would continue to play the lottery, Mrs Mills replied, 'I suppose we don't really need to but it's become a bit of a habit now. We go down to our local supermarket, choose our numbers and have a cup of tea at the coffee shop around the corner. So, I suppose, yes, we will continue to play. Surely we couldn't win again?'

Money raised by the lottery is used to fund and support good causes. For every ticket sold, a large portion of the money goes to a huge variety of projects, both big and small - from repairing park play equipment to funding future Olympians and Paralympians.

Addition and Subtraction Word Problem Challenge Cards

3. If a baker bakes 212 iced buns and 98 of them are bought, how many will the baker have left?

Addition and Subtraction Word Problem Challenge Cards

5. If there are 260 children in a school and 42 of them are out on a school trip, how many children would be left in school that day?

Addition and Subtraction Word Problem Challenge Cards

7. If a gardener plants 206 daffodil bulbs and 176 tulip bulbs, how many bulbs will the gardener have planted altogether?

Addition and Subtraction Word Problem Challenge Cards

2. If you have £155 and your granny gives you an extra £35 for your birthday, how much money would you have altogether?

Addition and Subtraction Word Problem Challenge Cards

4. If 445 passengers board a plane and 123 of them are children, how many passengers are adults?

Addition and Subtraction Word Problem Challenge Cards

6. If it is 550 miles from London to Glasgow and you have already driven 235 miles, how many miles would you have left to travel?
